

Certified Financial DNA® Wealth Mentor Training

Learn to know, engage and grow your clients for managing behavior to build enhanced relationships and unlock human potential.

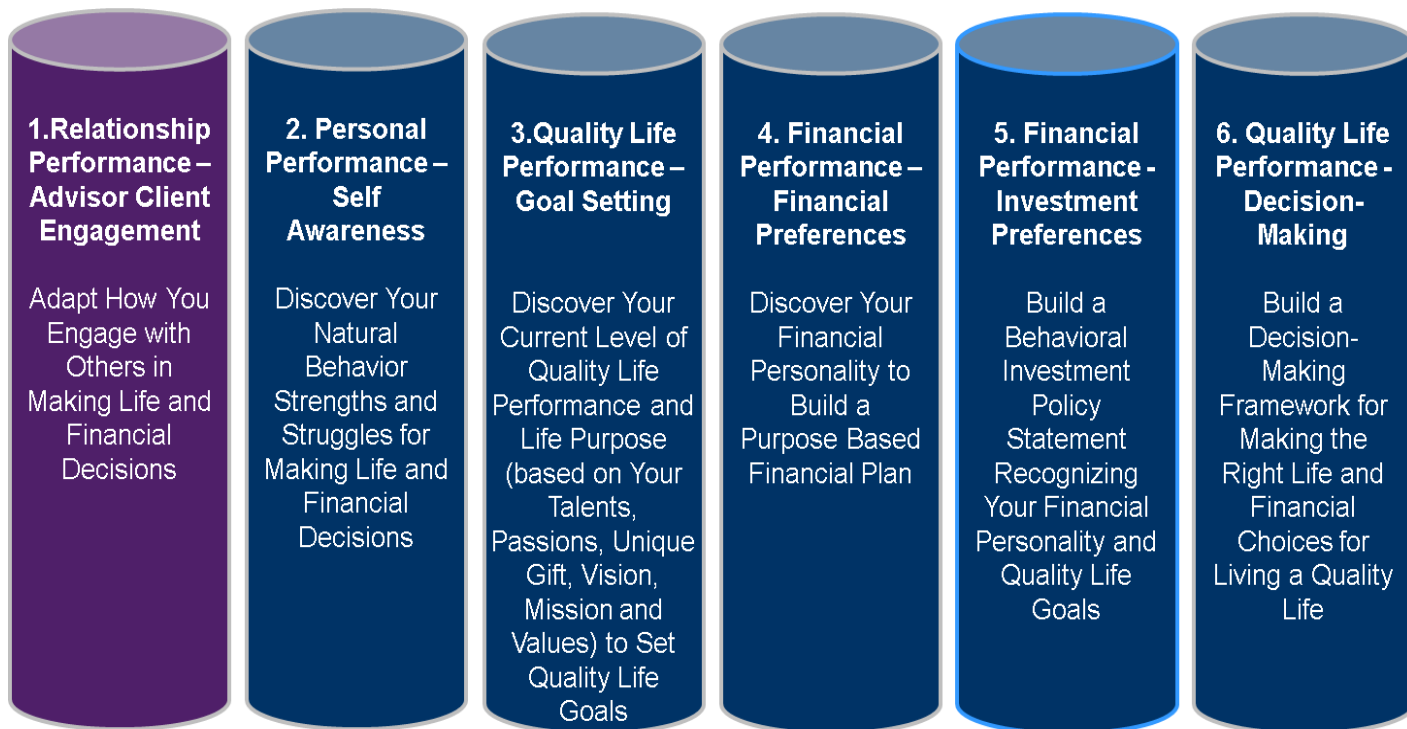

Guide Your Clients through Validated Financial DNA Discovery Processes to uncover Communication Styles, Quality Life Drivers and Financial Personality.

Program Overview

The Certified Wealth Mentor Training Program helps you to know, engage and grow your clients to deliver them customized life long financial planning experiences for sustainable Financial Planning Performance. You will learn how to deploy the 6 pillars of DNA Financial Planning Performance using the internationally recognized Financial DNA Discovery Processes.

Our behavioral methodology is proven to enhance your ability to more confidently advise, mentor and coach clients to make improved life, financial and investment decisions based on their purpose. Further, our highly structured and tangible Financial Planning Performance Planning Process will enable you to charge higher advisory fees and increase profitability on a sustainable basis.

6 Unique DNA Financial Planning Performance Solutions

The uniqueness of the Financial DNA approach to business is characterized by:

1. The unparalleled depth and reliability of the Financial DNA Discovery Processes for predicting natural behaviors for helping clients build greater self awareness of their life and financial strengths and struggles, and how they are inter-related for making the right choices to build a Quality Life.
2. Helping advisors measure Quality Life and Financial Performance and then customizing client and advisor experiences with the matching of life, financial, investment solutions based on life and financial behavior insights.
3. Increasing the emotional engagement of advisors and clients through the mutual sharing of behavioral insights and higher levels of behavioral modification.
